About Me

I am a Ph.D. student in the Interdisciplinary Program in Artificial Intelligence at Seoul National University, advised by Prof. Gunhee Kim in the Vision and Learning Lab. I am also currently a Research Intern at LG AI Research.

My research goal is to develop autonomous agents that can search, read, and reason over real-world knowledge in collaboration with humans. My research focuses on natural language processing (NLP) and multimodal large language models (MLLMs). My recent research interests include:

- **Document Agent**: generalist agents that plan and orchestrate multiple tools over documents
- **Multimodal Retrieval**: retrieval over visually rich documents and open-web sources
- **Multimodal RAG for Open-ended Generation**: grounding MLLMs in retrieved multimodal evidence

Education

Seoul National University — Seoul, Korea
Combined M.S. / Ph.D. of Interdisciplinary Program in Artificial Intelligence — *Mar 2024 – Present*

Korea University — Seoul, Korea
B.S. in Computer Science and Engineering — *Mar 2018 – Feb 2024*

Research Appointments

Language Lab @ LG AI Research — Feb *2026 – Present*
Research Intern

Vision & Learning Lab @ Seoul National University — Sep *2025 – Present*
Ph.D. Student (Advisor: Gunhee Kim)

Vision & Learning Lab @ Seoul National University — Mar *2024 – Sep 2025*
M.S. Student (Advisor: Gunhee Kim)

Language Lab @ LG AI Research — Jan *2023 – Sep 2023*
Software Engineer Intern

Machine Learning & Vision Lab @ Korea University — *May 2022 – Jan 2023*
Undergraduate Research Intern (Advisor: Hyunwoo J. Kim)
